HYDRAULIC GATE CLOSERS ENGINEERED FOR OUTDOORS

Discover our innovative solutions

HYDRAULIC GATE CLOSERS

DESIGNED FOR DURABLE USE OUTDOORS

Our high-tech hydraulic gate closers make your life easier. A self-closing gate guarantees comfort and a peaceful sense of safety. Besides, these gate closers do not require any maintenance. In addition to the attractive design, the 100% corrosion resistance and the innovative mechanics, every single gate closer undergoes a thorough testing before shipping.

Discover all about it.

EXTREME DURABILITY & MULTIFUNCTIONALITY

Hydraulic gate closers will transform any gate into a self-closing solution. Comfort, safety and peace of mind are guaranteed thanks to pure hydraulic power.

High quality components ensure Locinox closers to be 100% weatherproof, maintenance-free and extremely durable. A constant and consistent functioning is hereby guaranteed during an ice cold winter or a sweltering summer.

The unique concept ensures an easy and efficient fixation thanks to the patented Quick-Fix system. Moreover, closing speed and final snap can be adjusted very precisely and 100% to your customers' wishes.

Order fast & easy on our Loc-Eshop. Shipment within 24h.

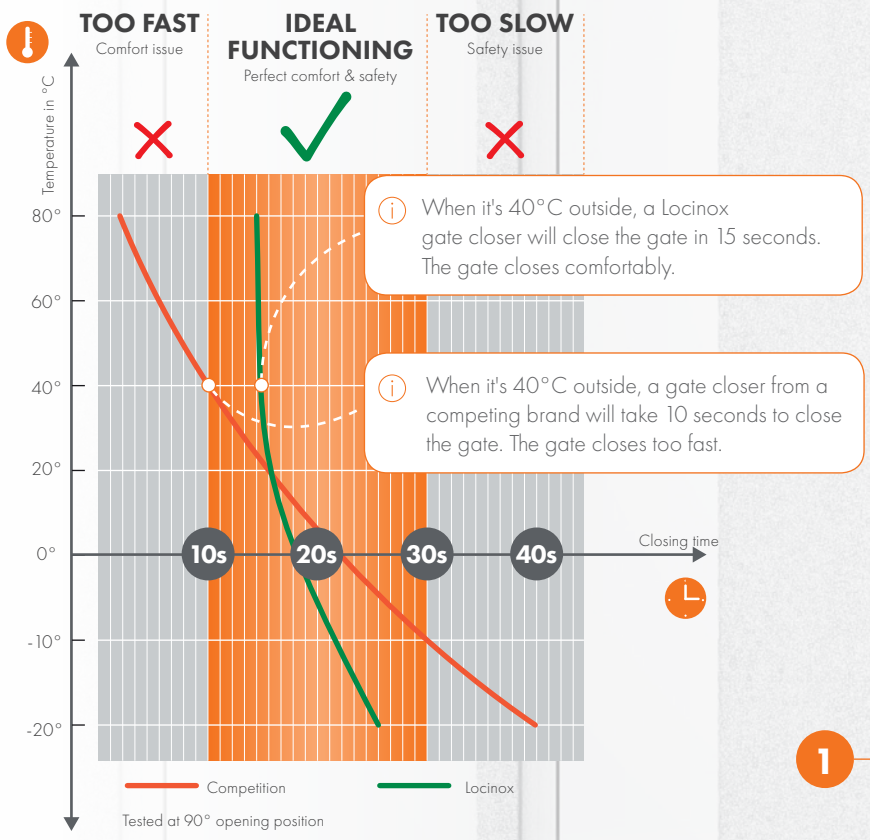
CUTTING EDGE SELF-CLOSING TECHNOLOGY

1 ALWAYS A CONSTANT CLOSING SPEED FROM FREEZING COLD TO OVEN-HOT

If your gate closes too slow, children or pets could sneak through. If your gate closes too fast, it might become a problem for wheelchair users. A loud slamming gate is not only annoying for you or your neighbours, it's also harmful for your gates.

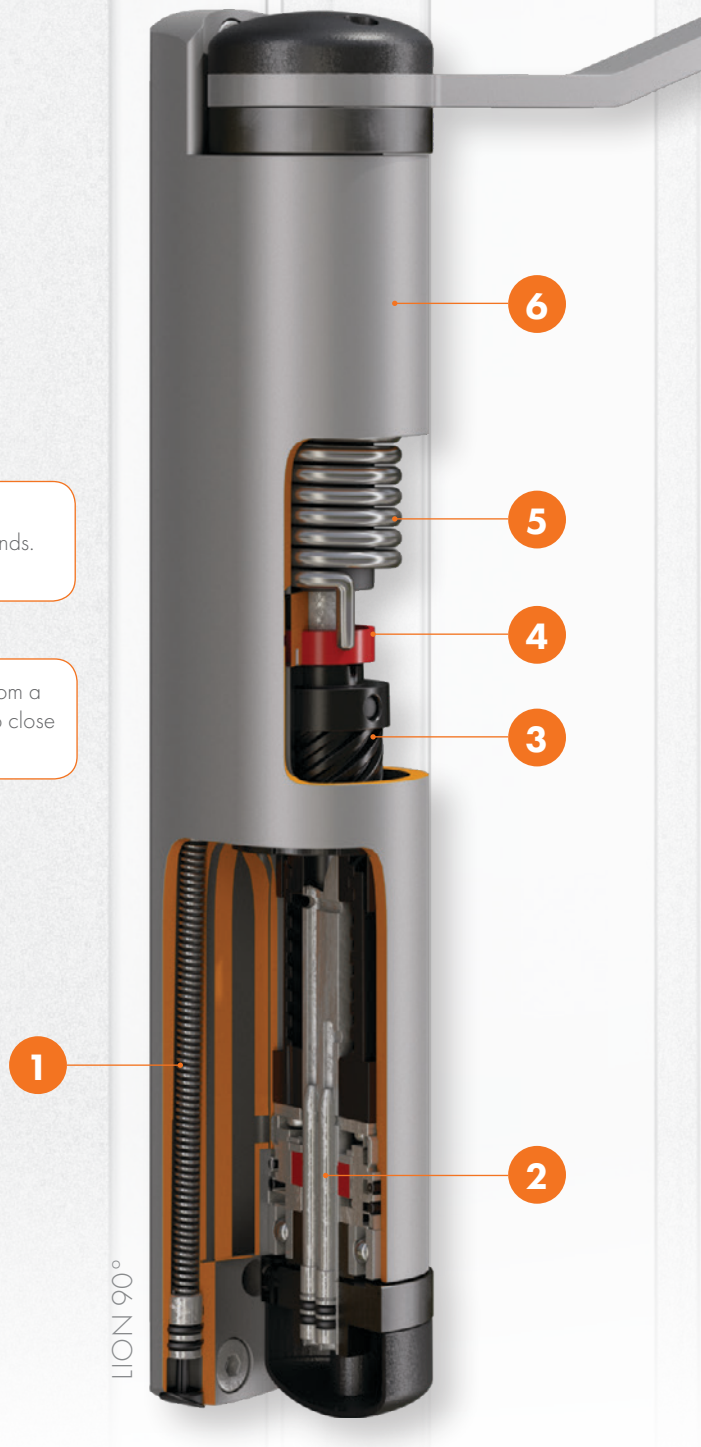
The Active Thermal System, our own cutting-edge development, guarantees a constant closing speed, regardless of the outside temperature.



2 ADJUST SPEED AND FINAL SNAP PRECISELY

Some customers prefer their gate to close slowly, while others want it to go a little faster. No problem! All of our gate closers can easily be adjusted in a matter of seconds to the wishes of your customers.

The final snap allows the gate to speed up a little at the end: this way, you are reassured the gate is properly closed. The final snap can easily be adjusted to any need.



3 FUNCTIONS COMFORTABLY

The in-house developed High-Helix screws guarantee a consistent functionality and ensure a comfortable opening speed for the elderly or disabled.

4 DUST- & WATERPROOF

Our gate closers are equipped with rotary seals. These seals protect the gate closers from dirt or dust particles intruding the mechanism, assuring your customers of worry-free functioning for many years to come.

5 CLOSES EVERY TIME

The powerful torsion spring guarantees the necessary closing force. Therefore, your gate will always close: unaffected by strong winds, the width of your gate wing or the outside temperature. You can rest assured.

6 100% PROTECTED

The aluminium powdercoated casing guarantees full protection against any weather conditions. The housing is windproof, frost-free and dust- & waterproof, allowing your gate closer to function perfectly.
