

# TS2000-BST

## 12V Programmable 7 Day Timer

### CAUTION

The unit is intended for 12V AC/DC operation only, and must not be connected to the mains supply or used to switch mains voltages.

### IMPORTANT - REMOVE BATTERY STRIP

The Time clock contains a 3V Lithium battery to maintain its display and time-settings during power failure. A film strip isolates the battery to prevent it being drained during storage and must be removed at installation.

N.B. The TS2000-BST will automatically adjust to European Summer and Winter times. To ensure the consistent operation of timed periods the correct date must be programmed. Please program the following:
