FEEL SECURE

Hello

"Hello" is more than a greeting. It's your first line of security, a way to welcome only those you trust.

"Hello" means knowing who's at your door, wherever you are. It's the confidence of reliable protection, and the elegance of cutting-edge technology.

"Hello" is Comelit.
For your home.
For your life.
Comelit.

Comelit is a leading video door entry system company that ensures security, reliability and ease of installation. Our proven quality spans the entire security ecosystem: intrusion detection, access control, video surveillance, home automation, fire detection and evac..

SINCE 1956, COMELIT HAS BEEN DEDICATED TO TURNING OUR VISION OF TOTAL SECURITY INTO A REALITY.

A Legacy of Leadership and Innovation

For nearly 70 years, we have been **recognized internationally** as a leader in door entry systems, celebrated for the quality, innovation, reliability, and ease of installation of our products.

Over time, we have expanded our expertise to encompass a **full range of security solutions**, including access control, fire safety systems, video surveillance, home automation and intruder alarms.

Our growth has been strengthened by strategic acquisitions, which, alongside our **research and development** centers in Rovetta, Bergamo, Tunis, and Paris, have established specialised hubs of expertise. These include PAC in the UK, Teletek Electronics in Bulgaria, Blueprint in Italy, and, most recently, Ingenium in Spain.

Today, our global footprint extends far beyond our Rovetta headquarters, **with 9 international subsidiaries, 8 research centres, over 1,000 employees, and a presence in more than 90 countries.** This robust structure enables us to deliver greater value to our partners and end-users alike, fulfilling our commitment to creating a safer world every day.

“The history of Comelit is shaped by the trust and confidence of those who have chosen us for their projects and achievements.”

SECURE.**

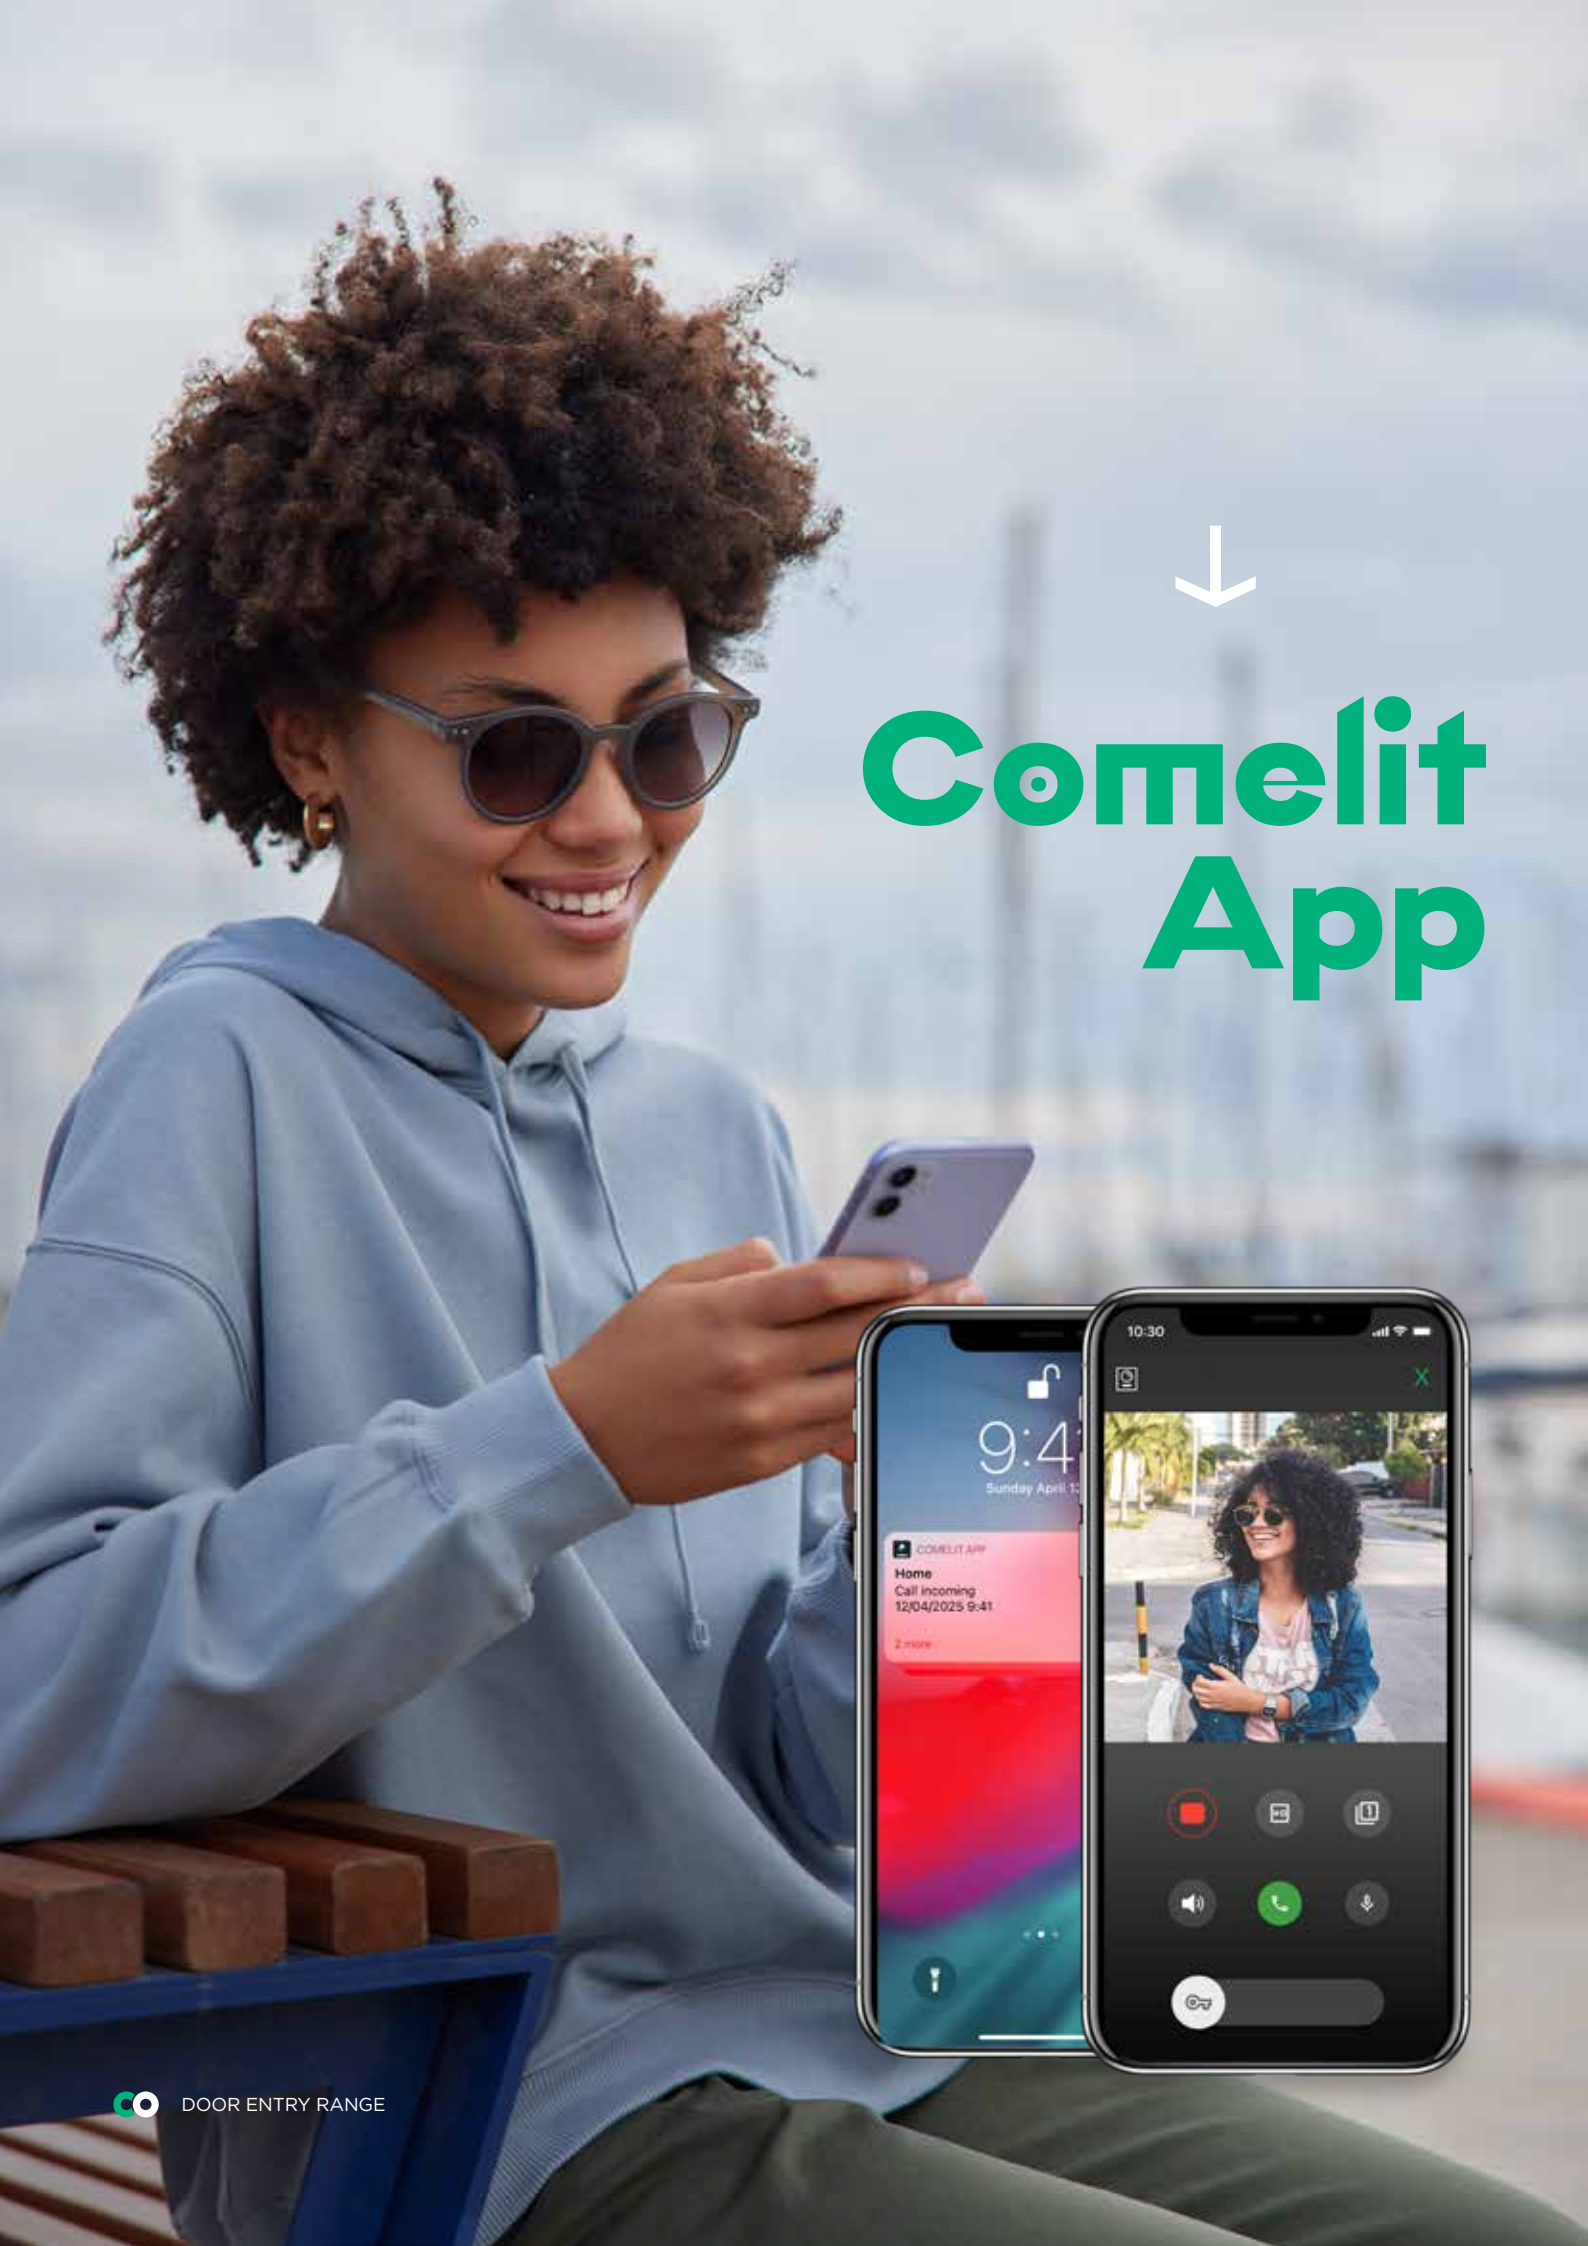

We believe in a safer world

At Comelit, we believe in a safer world, one where security is possible and accessible to everyone. We're driven by a genuine commitment to protect people, places, and the things that matter most.

Our values are at the heart of everything we do. They fuel our passion to innovate, to push boundaries, and to create technology that makes a real difference.

Without fear of failure, we move forward, every day, with one clear goal: to help make the world a safer place to live

Comelit App

Security that's always there, even when you're not.

A service designed to make a real difference.

We've developed a single app to manage the entire home remotely, a solution that makes Comelit the go-to choice for those who want advanced security with effortless control. With an intuitive interface built around the user experience, the Comelit App puts complete control of all your Comelit systems right at your fingertips.

Smart, user-friendly, and constantly evolving, the Comelit App is designed for today, and ready for tomorrow.

**Always know who's
at your door**

**Unlock doors
remotely**

**Check
the cameras**

**Generate and share
temporary access
codes**

**Controls lights and
devices**

**Manage home
automation and
anti-intrusion**

Good design
can be recognized
even in small details.

Ultra

Discover more

The perfect expression
of Comelit quality.

Ultra perfectly reflects our commitment to quality, offering total modularity, advanced technology, reliable safety, and standout design.

With **Ultra**, you get a customisable push-button panel designed to suit any requirement.

Its compact 9.5 x 9 cm form allows for endless configurations, from audio and video modules to a variety of button materials, including touchscreen options.

SteelTouch 8", the perfect expression of Comelit design. Crafted from brushed AISI 316 stainless steel, 2.5 mm thick, it offers exceptional durability and timeless style. Minimalist in form, it blends seamlessly with architecture, elevating every entrance. Built to last, its IK08-rated strength stands up to time and the elements. At the heart is a stunning 8" high-resolution screen, fully customisable with welcome messages, images, and unique graphics tailored to your space. A flawless balance of steel and technology.

SteelTouch

The elegance of steel,
the power of technology.

SteelTouch

SteelTouch 5

Elegance finds space everywhere.

Brushed AISI 316 stainless steel. Clean lines. Perfect proportions. The **SteelTouch 5"** is designed to blend seamlessly into any environment, even where space is limited. Whether wall-mounted or flush-mounted, it integrates discreetly and elegantly with the surrounding architecture. Its 5" touchscreen ensures intuitive interaction and instant access. Available in audio/video models and supported by a range of exclusive accessories, it offers maximum versatility to meet every need with precision and reliability. Compact, refined, and built for any setting.

Discover more

The strength of steel, the beauty of design. **3one6** is Comelit's signature solution for home security, robust, long-lasting, and crafted with unmistakable Comelit quality. The **3one6 Sense** range includes two models: Audio/Video and Audio only. Both are made from brushed steel and feature a minimalist, elegant design that blends seamlessly with modern architecture. A winner of the Red Dot Award, Good Design Award, and Merlion Award, Comelit 3one6 is also the world's first handset to feature capacitive touch technology. Beyond expectation.

3one6 sense

Steel becomes design.

Discover more

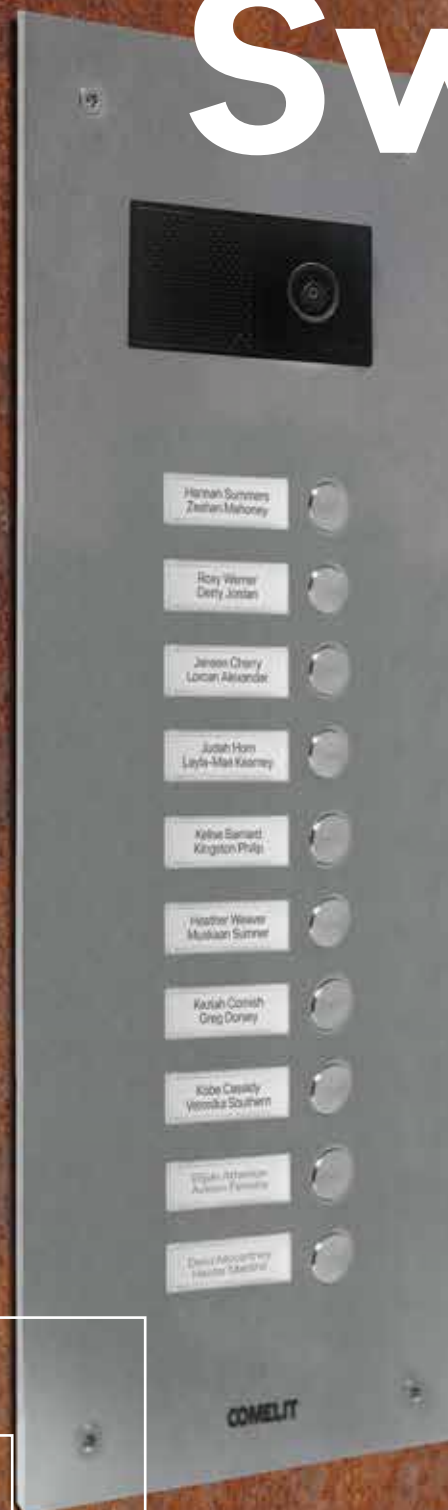

SteelSwitch is Comelit's minimal and elegant solution offering endless possibilities. Proudly designed and made in Italy, **SteelSwitch** allows you to easily, quickly, and cost-effectively switch between audio and audio/video systems. Its flexible structure supports a wide range of configurations, from 1 to 26 buttons, arranged in one or two columns, with options for both flush-mounted and wall-mounted installation. Crafted from brushed AISI 316 stainless steel, **SteelSwitch** stands out for its durability and refined aesthetic. Even the individual buttons are pre-installed flush and pre-wired, while still allowing easy front access for tag removal and customisation.

Where steel
meets design.

Vandalcom

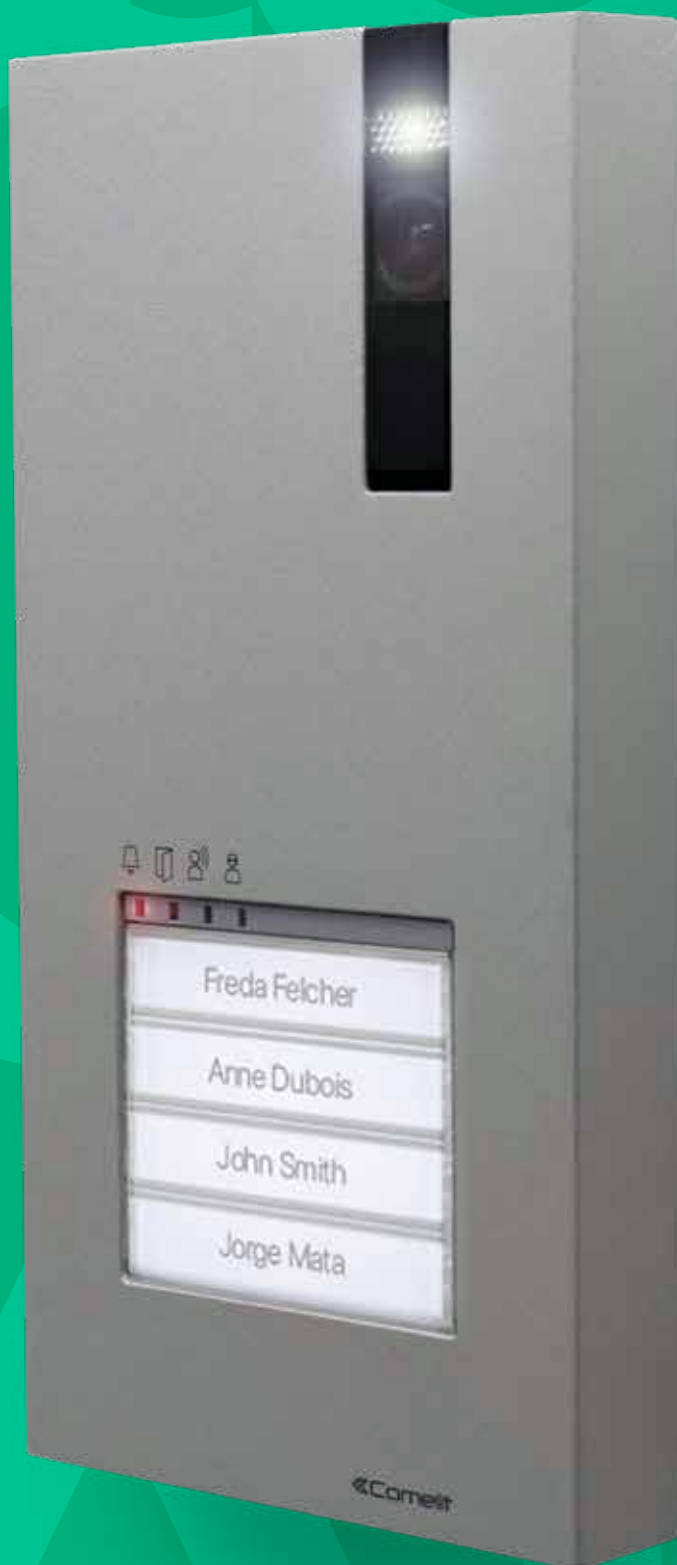

Discover more

Always ready.
Always safe.

The push-button panel built to withstand it all. Comelit's **Vandalcom** is designed for maximum durability in the toughest conditions. Made from IK10-rated stainless steel, it offers superior resistance to vandalism and wear over time. It's the ideal solution for high-security environments, providing a robust, certified answer to even the most demanding requirements.

OUT

Geometric shapes and an ultra-slim profile of just 23 mm gives the entrance panel its signature elegance and solid feel. With a minimal design and advanced technology, featuring a colour camera, four LED-backlit icons, and mechanical call buttons, **Quadra** is a top-tier solution for both style and function. Recognised for its state-of-the-art design, **Quadra** has won the Design Plus Award, the Good Design Award, and has been nominated for the Compasso d'Oro.

Quadra

Where Form Meets Function.

Emergency

Your safety,
our priority.

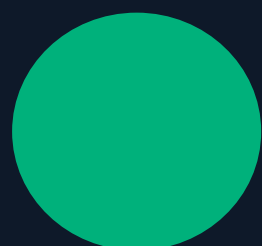

The **Emergency Panel**: reliable contact when it matters most. Engineered for critical situations, it ensures fast, dependable communication in any environment. Designed to meet ADA standards, it delivers maximum safety and accessibility, ideal for parking facilities, hospitals, commercial buildings, and public spaces where every second counts.

Inclusive and intuitive, it's built for everyone. Braille indicators, raised text, and both visual and audible signals ensure every call is accessible, because in an emergency, nothing should stand in the way.

Strong, compact, and built to last.
The **Ciao** door entry panel is made from die-cast aluminium and rated IK08 for impact resistance, ensuring excellent durability. Its IP54 certification also provides protection against dust and splashing water.

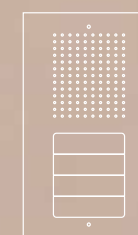

Despite its compact size, **Ciao** is highly versatile. The audio push-button panel can be configured with up to 4 modules, arranged horizontally or vertically and supports up to 20 users.

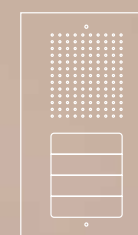

Reliable as
a friend.
