

3600 SERIES COLOUR VIDEOPHONE

Based on the popular 3000 series videophones the 3600 videophone is both elegant and robust, manufactured in white impact resistant ABS plastic and incorporating the latest technology and voice switching techniques.

Models are available in two lines: the "Standard" and the "High End".

The "Standard" line shares many features with the 3000 Series Colour videophones having similar or improved functionality but with the benefit of lower costs.

The "High End" line offers the same functions as the "Standard" line but with the addition of hands free speech (push to talk 'simplex' function also available) and OSD (On Screen Display) which offers greater functionality and flexibility to the user through on screen information programming and adjustment menu's.

Tel: 0870 300 1240
Web: www.videx-security.com

The 3600 Series Videophones use a high quality 3.5" Colour LCD TFT display (including OSD in the "High End" range) and house 3 large buttons on the front to manage the system operation.

Depending on the model these buttons are also used for programming and adjustments. Each button has an associated LED (Additional connections may be required).

A desk mounting kit is also available, part no Art.3631

MODEL	SYSTEM	DESCRIPTION
3612	Traditional	Lock release, camera recall & service button (9 Cores or 8 + Coax) Controls for call tone volume (3 position: Privacy/mute call, medium and high), picture brightness and hue.
