

# ARU-M

## Technical details & mode change

Thank you for purchasing the ARU-M  
The unit is supplied in "Fail-Secure" mode, as shown in the picture on the left.

Changing the mode to "Fail-Safe" is an easy operation, moving the position of 2 x screws at the back of the unit - please follow the steps as shown below:

**STEP 1**  
Remove the locking screw from the fail-secure position as shown

**STEP 2**  
Loosen the adjustable screw, and slide it to the opposite end of the oblong hole. Tighten the adjustable screw.

**STEP 3**  
Replace the locking screw into the fail-safe position as shown

Fail Secure

Fail Safe

### Simplified mode change

Red: +ve 12Vdc  
Black: -ve 12Vdc  
White: COM  
Green: N.O  
Yellow: N.C

### Dimensions (short faceplate)

### Dimensions (long faceplate)

### ELU25 ELU50

25mm 50mm

Where door frames are too wide, please use the optional extension lips as shown
