Datasheet

CAA-460P - CENTAUR Relay Expansion Module

Product Description

The CAA-460P is a relay expansion module providing an additional seven relays to the CTV900A CENTAUR controller. Up to two relay expansion modules can be added to each controller.

The relay expansion modules are connected to the controller via a RS-485 E-bus network, allowing you to install them at a maximum distance of 1,220m.

The module features an activation status LED for each relay, a communication failure LED with an associated output, a 24-hour anti-tamper input and supply monitoring.

Key Features

- Adds 7 relay ouputs to the CTV900A controller
- Up to two modules per controller
- E-bus connectivity to the controller up to 1,200m away
- Activation status LED for each relay
- Anti-tamper input
- Communication failure LED output

CE Certification

DEEE

RoHS Certification

0°C to 49°C

Product Specifications

Communication: RS-485 & E-Bus
Weight: 1.37kg

Input Specifications

Anti-tamper port: 1

Output Specifications

Relays: 7 x NC/NO form C relays rated at 5 A / 28 Vdc

Communication failure output: 1 (LED)

Electrical Specifications

Power input: 12 Vdc
Consumption: 50 mA (400 mA max)
